The Collective: Regarding NESARA and Other Changes Excerpt

These are “updates” you might say, that are not only relevant to your own energetic transmissions and evolvment, but relevant to what is occurring on the Earth now, and all around Her. And in various places in the Universe where much is being decided by galactic councils. Some of you sit on those councils, and are meeting nightly with those who are highly instrumental now in furthering the unfolding of NESARA.

So, in reality, on a deep level, you already know what is happening! You know that more of the perpetrators of the old power structure are being taken off planet, with substitutes (clones, solid holograms, or “look-alikes”) put in their place. These will also be removed in future.

That future is not far away.

It is already occurring, and this is another subject, as Time on the planet is speeding up to where it will soon no longer exist as you have known it.

When you speak of NESARA unfolding, you are (as many are) still thinking of it as something that happens to humanity and to the Earth. In fact, *all of your vibrations, and Earth's own vibrations,*

which have been rising and evolving to where they are unrecognizable from where they were even six months ago, are what is birthing NESARA. You are wondering if the impediments, the roadblocks that seem to be holding NESARA back, are being removed or dissolved, and we would say, Yes, on many levels. Yet Light Bearers' own progress, and their own requirement for a just, equal, and Abundant world, is one of the three greatest parts of NESARA's enactment.

The other two have to do with the vibrational shifts that are increasing now, to bring Earth's vibration to where Her environment will no longer resonate with (tolerate) the low vibrational behavior of the old power structure.

The other has to do with the astrological configurations of the new age, which are a mighty portal to Transformation and Liberation, opening wider now.

Jared's Conference Call 6/28/2023" The Origins of These Bodies" Notes.

-) In July sometime: What Jared is On-Board With:

-) Biden gets impeached, Jared stated the impeachment started on 6/28/2023, never made Fake MSM news.

-) All Biden's cronies get taken down (total fake administration).

-) VP Harris will NOT become President, Not even compromised House Speaker Republican Kevin McCarthy.

-) The Voter fraud from 2020 election will be revealed in a big way.

-) They will hold a special election, and the real Commander-in-Chief President Donald Trump will win this special election. Trump will be re-instated.

-) The Alliance and White Hats once they act, need to come in with full force, take the enemy of the people down completely, no games being played. A lot of executions.

-) Reveal a Coup did occur.

-) Military will be stationed across the country, to quell any uprising in any Major city or town.

-) Initiate the New QFS (Quantum Financial System)
-) Trump will move back in the current empty White House
-) There will be a cleaning of the State and Local Governments, corrupt people.
-) The Gold Standard will be announced.
-) We will see the New Rainbow currency.
-) NESARA will be activated and announced.
-) The private R/V GCR will start.
-) There may be power outages at times across the country in the transition.
-) Jared says the announcements can all happen withing a week's time, but will they?

What Jared is NOT totally on-board with:

-) Story, he received a telephone call from a military source, Jared will not reveal the name or rank. The story goes that the American Stock Market will in July sometime crash 20% one day, and the market will be halted of trading. Until the next day. It will be open again, and will go down another 20% and halted again. This will continue until the Stock Market is down 96% and we are in a full depression. Technically, America is already in a depression with real unemployment at 20% or more.

Saint Germain: The Truth Becomes Visible Excerpt:

“Every human being is important and the spirit and soul of man contribute to the big picture in a unique and wonderful way. Each person brings something to the table and each of you, as he/she is now, is significant for what follows.

DISCOVERIES

Great inventions that are rediscovered, released or rediscovered will shape the coming time:

- Treatments that eliminate the need for all medical interventions, as they were often necessary in the past.

- Energy transfers that balance the human body in a matter of minutes and restore it at the cellular level bring complete healing.
- At the level of locomotion, new perspectives are opening up. New technologies that will take you from one place to another, from one end of the world to the other, in near real time, will be made known and introduced to the astonished humanity.
- You are also facing true quantum leaps in the area of absorbing knowledge and generating knowledge. Through mastery of his mind, it is possible for the new human being to retain and integrate unimaginably large amounts of data in a short time – the non-verbal transfer of knowledge directly into the consciousness of the human being.

These are just three parts of human life that will undergo a serious change once the truth has prevailed and the spiritual light has taken over the reign on Earth.”

The Collective: Regarding NESARA and Other Changes

Posted on [07/01/2023](#)

THE COLLECTIVE: Greetings, dear ones! We are pleased to speak with you once again today. This week our writer has some questions she would like to ask, which we are happy to speak on.

COR: *My friends, I know you can't give us any actual dates, because that would be to interfere with human life and the current Earth timeline. And that would break cosmic law. But if you could tell us where we are regarding NESARA's unfolding, any information there would be greatly appreciated!*

THE COLLECTIVE: We speak [energetically] on this subject with all who are open to such, though mainly in their sleep state.

So that that aspect of a person's spirit and psyche, so powerfully connected to their soul, and fully aware of their Earth mission, takes in the coded information energetically.

These are “updates” you might say, that are not only relevant to your own energetic transmissions and evolvment, but relevant to what is occurring on the Earth now, and all around Her. And in various places in the Universe where much is being decided by galactic councils. Some of you sit on those councils, and are meeting nightly with those who are highly instrumental now in furthering the unfolding of NESARA.

So, in reality, on a deep level, you already know what is happening! You know that more of the perpetrators of the old power structure are being taken off planet, with substitutes (clones, solid holograms, or “look-alikes”) put in their place. These will also be removed in future.

That future is not far away.

It is already occurring, and this is another subject, as Time on the planet is speeding up to where it will soon no longer exist as you have known it.

When you speak of NESARA unfolding, you are (as many are) still thinking of it as something that happens to humanity and to the Earth. In fact, *all of your vibrations, and Earth's own vibrations*, which have been rising and evolving to where they are unrecognizable from where they were even six months ago, are what is birthing NESARA. You are wondering if the impediments, the roadblocks that seem to be holding NESARA back, are being removed or dissolved, and we would say, Yes, on many levels. Yet Light Bearers' own progress, and their own requirement for a just, equal, and Abundant world, is one of the three greatest parts of NESARA's enactment.

The other two have to do with the vibrational shifts that are increasing now, to bring Earth's vibration to where Her environment will no longer resonate with (tolerate) the low vibrational behavior of the old power structure.

The other has to do with the astrological configurations of the new age, which are a mighty portal to Transformation and Liberation, opening wider now.

COR: That is all good news, thank you! So now I need to ask, what is happening that people are so exhausted? And the emotional upheavals—do they serve a purpose? Or is that just the outcry from whatever has sat in shadowy corners inside our subconscious, ignored or shunted aside, because they're too painful to deal with?

THE COLLECTIVE: Most assuredly, all that is unhealed flows to the surface now! That is true of Earth's institutions—medicine, government, education, religion, and so on—and it cannot help but be true of each person's inner life.

That which has not been faced, tended to, admitted to, healed or transmuted—all of it, rising to the surface now.

That is part of what exhausts so many now. **And the Light particles flowing to Earth now speak to every cell.**

With their vibrational tone as well as their highly conscious Light, they remind everyone that it is time to evolve, if they wish to remain on a timeline that is increasingly the New Earth 5D timeline. Some will choose to remain in what they are used to—and this is exhausting many, this fight against evolvment!

Many will choose to move up, though it means facing a great deal that they have indeed pushed aside for millennia, in their great drive to simply survive, to get on with what life hands them.

COR: Is this part of why so many people are leaving their partners now? So many are looking at a spouse, friend, or some other loved one, and realizing, “This isn’t working.” Then they let them go in some way, if not completely.

Are we becoming another person? Or have our loved ones changed, or both?

THE COLLECTIVE: Both!

No one is able to remain their former 3D version in this Light, unless they desire to flow to a lower dimensional timeline.

That would halt much of their evolvment, yet you are still a free will planet. Creator Source energy protects all in this respect, and honors their choices.

And so, you will indeed find that you no longer resonate with some persons you love, or once did love.

Allow the shifts! Bless these dear ones on their way.

They mean you no harm, in the final chapter of your connection.

They are as confused as anyone now, as they uncover their true selves—as all are doing, despite the best efforts of many to try to keep life as it has been for thousands of years.

That would be impossible now.

COR: *Thank you! Can you tell us what is happening with human communication? Are we becoming more telepathic with one another, and with plants and animals, and maybe with Earth Herself?*

THE COLLECTIVE: Most assuredly. This is one of the many abilities you are increasingly regaining.

Watch your thoughts, particularly those punctuated with emotion, including laughter, derision, or any repeated imagery.

Energy is molding to your commands more and more now.

Many will say, “Manifestations are happening more and more frequently, and more quickly now!” and this is so.

Yet we do not call them “manifestations” in the sense that they are something special and unique that suddenly happens, or unfolds over time, if you concentrate hard enough.

Those days of narrow limitation are over now. Be conscious and aware of the power of your thoughts, emotions, and expectations!

For most assuredly, you mold your world with these.

You have heard people say that “Life is not happening *to* you—it is happening *with* and *because of* you.”

And we would completely agree.

COR: *Not sure we all know how to take responsibility for all that power, but it's good to know!*

THE COLLECTIVE: As many say often, “Takes practice.” Your awareness of your own energy-molding projections will develop over time.

COR: *Yes, thank you. Of course, I must ask also about the mass unfolding of Disclosure of the ET presence, which seems to be happening. It's not just for fans of The X Files or Ancient Aliens anymore. Is this a sign that humanity is taking its power back from the old power structure, which looks to be weakening by the day, despite the media façade, though even that seems to be waking up a bit.*

THE COLLECTIVE: First, release any fascination or need you may feel for following news reports, unless they are positive and uplifting.

There are energy transmissions being sent out now, by what remains of the old matrix, that are 10 times what they were, to induce a

populace's energetic vibration to be lowered from negatively slanted reports, as well as those that are complete fabrications.

The interest is in bringing the emotional vibration as low as possible, with all this chatter of “nuclear” this and that, and images and stories of so many struggling in different scenarios.

They're not going to show images of the many ship sightings occurring now, or of ET brothers and sisters aiding thousands with food, clean water, shelter, or medical help!

They're not going to talk about the Schumann Resonance climbing ever higher, or how consciousness has shifted so powerfully over the past year, to where many millions no longer see the need for armed conflict now, of any kind.

And they will not speak on the vital developments occurring in your solar system, except for a few highly veiled and restricted scientific reports on the Sun that do not fully address his Transformation, let alone how this affects Earth and humanity.

Their comments and concerns are superficial, full of fallacies, and nowhere near the “expert” status that they claim.

And so, consider their inane chatter to be completely irrelevant. **To become “better informed,” as they say, get quiet and ask your Spirit team to tell you what is happening on the planet now.** They will be happy to assist!

COR: *What is the best thing any of us can do now, to assist our own Ascension?*

THE COLLECTIVE: We would ask, *what brings you Joy?*

What lifts your spirit to where you see only the good in yourself and others?

What assists you in blessing releasing all who have done you harm in this and other Earth lives, and what assists you in realizing that their own pain and ignorance led them to these words, these acts that still sting within your memory.

What meditation, what music, what places in Nature, which acts of pure self-caring and self-Love, lift you to where you are thankful to be alive, even on a planet experiencing the chaos of Divine Rebirth? Engage in these things, and know you are on a path that no one can deter you from now, no matter what.

Then you arrive one day upon that path as a fifth dimensional being, climbing ever higher. So full of Grace and Love for all, including your own life, no matter how small and vulnerable you may feel at times. **Fully within, you are a god or goddess who has only just begun to rise.**

COR: *Thank you, dear ones! Yesterday as soon as I brought you in, to channel answers for the weekly Platinum & Gold Member Abundant Living Q&A Call, you came in with a kind of joyous*

excitement, as if great things were happening. It still feels like there's an excitement building now. Similar to how the music builds from something very quiet to powerful, heart-shifting moments in the song "Peace Calls."

"Peace Calls" – Robert Mirabal and NYC string quartet ETHEL

If you have anything to share—any new development as far as something occurring now, we would be happy to hear it!

THE COLLECTIVE: Ah, now you have hit on it!

We would say, come out of the mind and its left-brain insistence on "words, words, words," as Hamlet would say!

Come well out of that, and as you listen to "Peace Calls" and any other stirring and revelatory composition— Or see a painting or a place in Nature that seems to be a portal to another world—

Or see the miracle in the simple Joy and trust in Life that a child has—

Then you will begin to understand that it is not mental training or expectation that you open to receive now, but the rise in consciousness—the rising of the high heart—that all of you have sought for millennia.

Open to the awakening of the heart and soul, far more than the demands of the logical mind, despite the mind's many questions!

There is no "news" or information that can bring you to that state that that song describes, in tonal vibration. So, resolve now to travel through that sound portal to remembering Who you are, and why you are here.

This is one great cause for the excitement and Joy you felt as you brought us through yesterday, and it is the biggest one.

Bigger than mass landings, and even NESARA itself.

All of you seek healing, yes. But mainly, you seek Transformation, and that is what we see occurring within you now, dear ones!

Nothing less.

Namaste, friends! We are with you in all of this, and in all other moments besides. For you are never alone.

Saint Germain: The Truth Becomes Visible

Posted on [06/28/2023](#)

Every effort made by you serves this sacred purpose: to make the truth socially acceptable on earth and to banish all that is untrue and rotten from the earth.

STORM OF TRUTH

The truth paves the way, it becomes visible everywhere and prevails everywhere! The signs of the times point to the storm of truth.

Nothing can withstand this dynamic and everything will be subordinated to this necessity so that the way can be prepared for the new age of humanity.

With the advent of truth, everything changes!

Because only then can the light of God do its salvific work in the hearts of people, only then can you experience yourself as a person of God and only then is the veil between the worlds transparent, so that a living communication between you and your family from being can take place.

Today we are working towards that day.

Every effort made by you serves this sacred purpose: to make the truth socially acceptable on earth and to banish all that is untrue and rotten from the earth.

Already there are increasing signs that we are on the right track, already your work and your perseverance are bringing to light the true, good and noble in man, because you are becoming more and more. There are more and more who seek the truth and who want to find it first in themselves. What is untrue, false or ambiguous is recognized and banished from life.

PEOPLE ARE READY!

Today, more and more people are ready to initiate major corrections, and if necessary, to completely rebuild their lives. Today, more and more people are waking up to the fact that they no longer want to fool themselves, that they are looking into their hearts and tackling the healings that are necessary.

Even if it is a minority compared to the number of the world's population, the people who are now awakening represent a majority when it comes to restoring a light-filled fundamental vibration on this earth.

The quality of these people outweighs any number, who's creative will and power of manifestation were awakened by working on their own topics. The lesson that everything begins with ourselves, with yourself, has been understood and so now everything takes its good, right and healing path.

MIRROR OF TRUTH

The forces of the unlighted spread falsehood, the lie has grown on them like a skin and they will not give way until they see themselves and their misdeeds in the mirror of truth. No one can avoid this reflection permanently! You know it, and they know it, that the time has come.

However, it is also true that every being plays its irreplaceable role on earth until the final chord. Until then, it is important to persevere and master the time with GOD. For the day when the trumpets of God usher in the end and new beginning is near.

TIMELINE OF LIFE HAS BEEN REACHED!

This means that the revelations will continue to increase rapidly, so that more and more people can get a glimpse of the big picture. Nothing remains hidden anymore. In the process, all the threats of frightening future scenarios begin to dissolve before your eyes.

You have reached the next level of consciousness. Today you look at current affairs with different eyes. The outside has lost its power. Power, exercise your soul now, and you have found direction. Fears

disappear more and more, worries about the future diminish – and GOD has returned to your life.

Verily, humanity has chosen the bright future and reached the timeline of life to the degree that is required.

On the outer world, the earth continues to rotate and the revelations take on ever greater proportions. Inside, however, more and more people are completing themselves and they are becoming impregnable spiritual fortresses.

In this way, the forces that have so far enriched themselves with your life energy are thinning out, because in the light of the truth neither their lies nor they themselves can stand.

Truth prepares the way for humanity into the light.

EVERYONE HAS A SHARE!

Truth prepares the way for humanity, for truly you are honored beyond measure and blessed beyond measure! For in you, through you and in you, God's plan is fulfilled on and with the earth.

PART 2

Every human being is important and the spirit and soul of man contribute to the big picture in a unique and wonderful way. Each person brings something to the table and each of you, as he/she is now, is significant for what follows.

Dear ones,

I am MASTER ST. GERMAIN and I am now in the midst of you!

After the truth has prevailed and the lie has been erased from human hearts as well as from the collective human consciousness, the Golden Age begins.

In this time, which is now slowly spreading before you, you have ALL a part. You are involved in different ways when it comes to raising the Earth

to the higher level so that people can unfold their consciousness and develop their heart qualities.

Every human being is important and the spirit and soul of man contribute to the big picture in a unique and wonderful way. Each person brings something to the table and each of you, as he/she is now, is significant for what follows.

DISCOVERIES

Great inventions that are rediscovered, released or rediscovered will shape the coming time:

- **Treatments that eliminate the need for all medical interventions, as they were often necessary in the past.**
- **Energy transfers that balance the human body in a matter of minutes and restore it at the cellular level bring complete healing.**
- **At the level of locomotion, new perspectives are opening up. New technologies that will take you from one place to another, from one end of the world to the other, in near real time, will be made known and introduced to the astonished humanity.**
- **You are also facing true quantum leaps in the area of absorbing knowledge and generating knowledge. Through mastery of his mind, it is possible for the new human being to retain and integrate unimaginably large amounts of data in a short time – the non-verbal transfer of knowledge directly into the consciousness of the human being.**

These are just three parts of human life that will undergo a serious change once the truth has prevailed and the spiritual light has taken over the reign on Earth.

The prerequisite for this is that man can perceive himself as a light-filled and healed part of creation and actively assume his actual role in the plan of creation.

HEALING OF THE HEARTS

The healing of your hearts is therefore the supreme commandment!

It is important to fully commit ourselves to this healing today, now on the last meters, until it becomes LIGHT:

- Please stop boosting your ego beyond measure!
- Pursue your own soul plan and do not follow the life plans of those who control this matrix.
- Take heart and end the old life if it feels wrong and inconsistent.
- Don't wait for anything to change while you pillar of salt remain immobile and solidify.
- Take the necessary steps in your spiritual process now and complete what is intended for you.

If you ask, “Yes, Master St. Germain, but what is it that is meant for me?” I will answer, “You know! However, all too often and all too often you overhear the voice of your soul and you turn a deaf ear to whispers from eternity.” The faster and the more profoundly you now advance the healing of your heart, which has been wounded by many lives, the more immediately what I spoke to you at the beginning will become apparent.

The light prevails everywhere after the truth has spread and after you have found healing and grace in the light of God.

Trust your power, claim your power as a divine human being on earth, because only in this one way does your being and becoming take place.

In infinite love
MASTER ST. GERMAIN

The Moment of Truth

Posted on [06/26/2023](#)

The cost of keeping the lie alive eventually becomes too high, and it collapses

Election rigging. Covid hoax. Genocide. Blackmail. Bribery. Trafficking. Treason.

It is all going to come out into the light, and the world is going to be shocked, even those who are aware of what has been going on. Today is the anniversary of the establishment of the Freemasons in London in 1717. It is also St John's Day. Plus, it is June 11th in the Julian calendar, which is an 11/6 (European style) or 9/11 (US style) reversed. Let's see what happens over the next few days and weeks. The Russians seem to know something big is coming, and troops are in place across America. This promises to be a summer like no other in our lives.

Everything is connected, and citizen sleuths have been uncovering crimes and joining the dots between them for years. This only tells us what those in military intelligence have known for decades. We have been under the thumb of a transnational mafia, with communist and post-humanist goals. It is exactly as JFK described: "...a monolithic and ruthless conspiracy that relies primarily on covert means for expanding its sphere of influence — on infiltration instead of invasion, on subversion instead of elections, on intimidation instead of free choice, on guerrillas by night instead of armies by day."

That these things are connected does matter. You cannot expose all the 2020 election fraud (and all the other elections) without also revealing how the Covid hoax was used to manipulate mail-in balloting. You cannot expose the ballot fraud without also unmasking the genocidal jabs (and test swabs, and everything else used to poison us). You cannot expose Big Pharma without also exposing Big Tech, Big Media, and Big Everything. The whole military, industrial, entertainment, academia, finance complex then has to unravel. The world that emerges from the rubble looks nothing like the one that stands this morning.

Over the past five (and more) years the Devil has tried to wear us out, and that hasn't worked. Those of us who are "awake" have lost none of our zeal, and indeed are now hardened and experienced warriors for the cause. This is a literal fight to the death with an evil that can only be totally vanquished and eliminated. We patriots intend to protect ourselves, our families, and our homelands. Thankfully the professional military are doing the heavy lifting, and the job of us as calm civilians is to prevent civil war and limit the fallout from the inevitable upheaval. Keyboard warriors spread truth, and by their selfless action they deny lies the room to harm us and others.

The moment that the 2020 election result is overturned, the mass arrests (which have been ongoing) are announced, and the Covid genocide is reveal is a turning point for humanity. The enemy at that point has to switch from a covert war to an overt one, and attempt to take us down: The Devil has to try to take us out. Cyber-attacks, power blackouts, communications failures, supply chain disruption, and financial crashes are almost certain. The term "civilization near death experience" keeps cropping up, so set your expectations accordingly. A near-brush with WW3 seems on the cards, if only as a staged movie to wake up the sleeping masses and trap the treacherous. This is not going to be easy, but there is clearly containment and mitigation in place.

For those in shock at a “rude awakening” reading this, there are a few messages for you. The first is that we were enslaved long before any of us was born, our history has been largely erased and replaced by lies, and all of us have been subjected to intense lifelong indoctrination. The world is not as you were told, and we have been at war all of our lives, even when we thought we were at peace. None of this is your fault, and that others rejected the programming faster than you does not make them a better person. We each have our own journey, and nobody else has been called to walk in your shoes. Your primary job from this point forward is to heal yourself, despite the immediate rage at betrayal and grief over lost idols.

The second is that others of us have been deliberately prepared and training — through the Q operations as well as other means — to be there for you in this hour of need. We have been forced to do our own inner work, as the darkness of the world was exposed. We have “held the line” for years, despite ridicule, ostracism, and persecution. We are not the people you knew a few years ago, and have grown immeasurably in ways that you may not yet appreciate. Our job is to stabilize society through this radical change, provide comfort to those in distress, and be pioneers for unrecognizably better world. It has been a brutal experience, but what doesn’t kill you really does make you stronger, and you can trust us when all other trust is lost.

The third point is that you will be wondering where you (and so many of those you counted as smart and informed peers) went wrong. This is a spiritual war, and ultimately you were worshipping the wrong thing. You put temporal authority on a pedestal, trusted corrupted institutions, and bought into narratives of fear and control. Your desire to be right, and approved by your friends and colleagues, was greater than your drive to be righteous. If you want to end the pain, you need to reconcile with an

external reality, repent your pride, and seek a higher power than the state. There is no other way, but the price of forgiveness of sin is pre-paid and no sacrifice of animals or children is needed.

The moment of truth has to come; it is inevitable. It spells the end of our current political system, as nobody will trust a politician again. It is the demise of our tax system, as sane people don't fund their own murder and enslavement. It is the collapse of our financial system, as repaying government debt depends on that income. It is the terminus for our corrupted legal system, which has imported the laws of the sea and the dead onto the land of the living. It is an inferno of the false prophets of religious spirits, who told you to comply with the masking and mutilation of children. It is an apocalypse of the trust kind: a revealing of all that was disgusting and in the dark.

It is a cliché to say that this is all about the children, and undoubtedly, we will be confronted with the hideous nature of sacrifice, rape, torture, harvesting, and drug production from our young ones. Yet there is a facet of this that is overlooked. We all have an inner child, who carries our wounds from earlier in life. This vulnerable part of us needs holding and healing, and is a universal experience. We must collectively face this Great Awakening not only for the victims of the past, and the unborn of the future, but also for ourselves. It is a chance to collectively stop, drawn breath, and recognize the trauma we have all been put through. A financial, political, or technological reset is minor in comparison to a relational, cultural, and spiritual one.

In order for us all to be free, we need to escape from the reactive behaviors of our injured inner child. My sense is that even what we call narcissism, a key source of unkind acts, is misleadingly termed. All the syndromes and disorders are reactions to trauma and disconnection from love, causing us to split and fragment in order to function and protect ourselves. Once we recognize that we have all been subjected to nonstop Satanic abuse, to at least some degree, then we can have a shift in consciousness towards healing and health. The paradox is that we can only recover if we first fully immerse ourselves in the pain of our problem. There are many ways of deprogramming and reprogramming ourselves to get through this collective dark night of the soul.

I have observed a useful reframing for those who are just awakening. Even my parents have admitted that they sometimes discuss “Martin was right”, but I have counseled them to see it a bit differently. What this is really about is “that’s how the world really is” — and what Martin or anyone else thinks is irrelevant. To seek truth and morality is to accept the divine, and transcends our personal rivalries or personality problems. The act of reclaiming our independent thought and ability to discern reality from narrative (and thus morality from ideology) is what counts. “I told you so” may be true, but is irrelevant, beyond establishing a history of credibility that should be heeded in future.

The “conspiracy theorists” have mutated into “accountability engineers”, and are now busy at work at a local and

national level filing affidavits, voting our woke school board members, and launching law suits against those who broke our trust. The Devil may have persuaded you that he doesn't exist, and caught you in a trap, but there is always the opportunity to repent and join in. All of us are imperfect in some way, and the paradox is to accept your infinite worth, while also integrating your fallen nature. To "awaken" is to reject demonic schemes that rent back to you that which was yours in the first place, while also accepting the grace on offer for the chance to atone your own devilish moments.

The moment of truth about the external world is necessarily a moment of realisation that you have been deceived, which makes you a fallible human after all. You might even be a clever and respected world expert in probability, with books to your name on the subject, and believe you have too many street smarts to be played. Unfortunately, the subject that matters is not "tail risk" but "asshole risk". Those who will suffer the greatest fall were prideful and conceited, believing no "conspiracy" could be of a scale, subtlety, or depravity beyond their own imagination. The moment of truth is as much about who we each are as vulnerable individuals, as it is about the wider and wicked world.

Sometimes that truth is ugly. But it is the truth. And its time has come.
