

Patrick J. McShay - There Are Major Policy Differences Between Trump, Clueless Kam, And Tampon Tim

"Kamala Harris Becomes The First Indian-American Woman Elected To The US Senate"

****Front Page Headline of Kamala's Hometown Paper***

"Tim Walz has an amazing personality, he just has terrible policies. We do not need to turn America into Minnesota"

****Jack Brewer- Former Minnesota Viking and CEO of the Brewer Group***

Kamala Harris and her choice for Vice President, "Tampon Tim" Walz, a longtime supporter of the perverted and graphic LGBTQ agenda being forced into grade schools by liberals, put a spotlight on the sexual indoctrination of American children this week when it was revealed that, Walz, as Governor of Minnesota, ordered that Tampon dispensers be installed in Boy's bathrooms in grade schools and high schools in his state.

There are many policy differences between Kamala Harris and Donald J. Trump and most of those differences will be front and center in the Harris-Trump debates. The biggest difference is, like Biden, Harris is a puppet of the globalists who control the World Economic Forum, and the World Health Organization. Biden's "Green New Deal" is a UN edict, and his open border policy is directed by these same foreigners who hate America and need a weakened US to implement or force their New World Order dictatorship.

The WHO and WEF were instrumental in the long-planned COVID-19 pandemic and the subsequent forced injections which were not a vaccine, but dangerous, untested, DNA-changing, gene therapy that has injured and killed millions of people, and the sudden deaths continue unabated.

Mr Walz is a hard-left Marxist, hardly the moderate centrist that is being portrayed to the zombies on the left by the liars in the media. After three and a half years with Dementia Joe and the clueless Kamala in charge, I suppose anyone different looks good to Democrat voters. Walz looks like Bernie Sanders's older brother, and policy-wise he makes Bernie, Kam, and dopey Joe look like a Reagan Conservative.

Walz is a former high school teacher who has oddly visited China over 30 times, including his honeymoon, (He called JD Vance weird), and sounds like he wants to be Chairman Xi's BFF. These trips weren't your typical vacation. At the time of these trips, Walz was a member of the US Army Reserves and took 30 to 60 of his students on yearly visits to China.

After college Walz took a job teaching in the Guangdong province of China through a program at liberal Harvard University and became one of the first government-sanctioned Americans to teach in China. Mr. Walz has said he doesn't believe our relationship with China must be adversarial.

This sounds naive and ignorant based on everything we see going on in the World. It does however sound like someone who has been indoctrinated with Chinese propoganda for over 30 years, Americans might find that a little weird. Most Americans would say that more time should be spent on reading, writing, and becoming proficient at math

and less time indoctrinating our children with an LGBTQ lifestyle or the Communist Mandarin culture.

***Billboards around Minnesota Read, "Minnesota schools are the Worst in the nation for our children of color." So voters can be certain that picking a Minnesota teacher as vice president won't be a big plus for education**

Donald Trump is a big promoter of school choice and wants to stop the racist "Critical Race Theory" and the LGBTQ indoctrination introduced into schools by the left, and praised and supported by the incompetent team of Biden and Harris. The corrupt Department of Education needs to be dissolved and reworked and the Teacher's Unions need new leadership before it's too late

Walz also has a stolen valor problem with his National Guard unit which says he abandoned his unit and quit on them right after they had been ordered to Iraq. He has also lied about his combat experience (He had none) and his rank, (Calling himself a "Command Sergeant Major which is a lie). I can see the veterans abandoning the Harris/Walz ticket from here.

The Tampon dispensers are part of the left's LGBTQ agenda involving sexual indoctrination and grooming America's children, which they started forcing on blue states years ago, and under a Harris/Walz presidency will be forced on schools in red states that aren't currently in compliance. Pedophiles hold powerful positions in many countries including the US and international bodies, and lowering the age of consent is a part of this agenda.

This indoctrination starts in pre-schools and involves teaching young impressionable children about homosexuality, transexuals, anal sex, oral sex, sex toys, and much more. Drag Queen shows for children are encouraged by the left while many of them have been organized on US Military bases. God was taken out of schools and Satan was ushered in with this perverted sexual agenda targeting our most vulnerable citizens.

Democrats have accused Republicans of banning books but what they don't tell you is these were X-rated books detailing graphic teenage same-sex sexual encounters that were made available to grade school-age children. Tampon Tim is a big proponent of sexualizing your children.

Schools are encouraging children as young as first grade to identify as the gender they feel most comfortable with and to choose a new name that better suits their new identity for use in class...but the teachers tell the kids to keep it from their parents. Teachers tell the kids to keep most of this agenda from their parents.

Tim Walz & Kamala Harris are all in on indoctrinating and grooming your young children into their perverted pedo, LGBTQ cult, forcing schools to put Tampons in the boy's rooms, and forcing students to take unapproved and experimental vaccines to attend school, and they had the nerve to call JD Vance weird!

In some states, parents who try to interfere with their minor child being groomed and given hormone blockers, are having their children taken away by the state. See this:

Another economic policy disaster is the left's obsession with the climate hoax which is a globalist boondoggle like the Globalist UN's forced immigration plan which is the long-planned replacement theory that the Biden administration denies. Illegal immigration costs taxpayers trillions of dollars, and California alone spent \$23 billion on illegals in 2023.

Biden has already committed trillions to the climate hoax and Treasury Secretary Janet Yellen said it will take \$28 trillion to get to net zero. These people are nuts and appear to be hell-bent on destroying the country. Recently 1500 scientists around the World signed a statement calling this climate hysteria a hoax. This global warming is a hoax that will usher in new taxes and will be used to control populations. The UN and FEMA are already game-planning "Climate Lockdowns". See:

***Global Warming and Other Government Lies**

Trump would drastically cut spending on climate programs and initiatives, and he would open up drilling and pipelines that were shut down by Biden as soon as he took office. Next Trump would stop the electric car agenda and mandates that have cost the automakers hundreds of billions of dollars under Biden's incompetent leadership. Why are these unions not endorsing Trump?

The Democrats like to talk about freedom and democracy but they are the party of raising taxes, more regulation, and telling Americans what they can and can't do and where we can and can't go. They are also the party of censorship and illegal spying on the public. Trump is a deregulator, which means more freedom, fewer fees, and lower taxes. Under Biden, gas for your vehicle isn't the only thing skyrocketing.

Energy expert Dave Walsh said recently that since Biden took office, electric bills in the US are up 31%, airline tickets are up 22.4%, homeowner's insurance is soaring, and interest rates, home prices, rentals, restaurants, and groceries are becoming more unmanageable every day.

Biden had another horrible jobs report last week and a 1000+ stock market plunge this week, and while Biden brags about gas prices coming down, they reached \$3.75 per gallon in my state recently, the highest it's been since he took office. In the last two years, Americans have paid higher gas prices than in the previous 24, and under Harris/Walz it will only get worse. Trump will fix this quickly.

The phony Democrats fell over themselves praising Joe Biden's courage in stepping aside when everyone with a pea-sized brain knew the knives were out and the old criminal Biden no doubt made a deal to sweeten his retirement by bowing out quickly and without a fuss.

It really is an easy choice, the Biden/Harris plan involves trillions more in spending we can't afford for their globalist handlers, more regulations, and what Democrats always do, they plan to raise our taxes. Trump plans more tax cuts and economic growth, no taxes on tips, and no taxes on Social Security, something Harris/Walz will never do.

Trump will stop the racist Critical Race Theory being taught in schools, and end the sexualization of grade schoolers. He has also promised to stop Male-born transsexuals from competing in sporting events against natural-born Females, a position held by the vast majority of Americans.

A recent Chicago Counsel On Global Affairs (CGCA) poll showed that 55% of those polled oppose sending US troops to fight for Israel. Support for Israel among American citizens is at its lowest point since World War 2, but the Israel lobby controls the Congress and Senate. Trump should recognize that Congress and the Senate are clearly compromised based on the dozens of standing ovations Bibi Netanyahu received in Congress a few weeks ago.

Trump cannot be an Israel yes man, making decisions that are not in America's best interest that we will later regret. He has already shown far too much interest in bending over backward for Israel and needs to show restraint in future dealings with Israel.

Buckle up, we're moving into the presidential rally season with just three months until the election, and we have a Secret Service protecting Donald Trump that is incompetent and far from forthcoming on the details of their inadequacies in the assassination attempt three weeks ago. Professional Audio analysis proves more than one shooter, yet we're still fed the lone gunman nonsense. Why is the Secret Service so incompetent and unprofessional? It must be "The Biden Effect", meaning when everything turns to shit!

Who is running the country? Joe Biden has checked out, that's pretty clear, and Kamala is cackling her way through Minnesota with Tampon Tim, a Communist most people wouldn't trust to watch their kids. This

country has no real leadership and Harris has no policies listed on her website because she has no plan. I guess defunding the police, Diversity, Equity and inclusion, Critical Race Theory, record inflation, immigrant crime, and expanding sanctuary cities are uncomfortable topics during the election season.

So far Kam has given the same tired speech to built-in audiences at two conventions and a Minnesota concert by Indy Grammy Winning band and hometown favorite Bon Iver, whose fans started leaving as soon as Kam took the stage. In her short speeches, she angrily ranted about the horrible inflation and high prices and opined about the importance of border security as though she had nothing to do with any of it.

I look at all of our politicians suspiciously and trust none of them. Since Dementia Joe was elected, Kamala Harris has been looked at by the voters on both sides as well as some politicians on the left as incompetent, ineffective, unpopular, and a huge liability to Biden's reelection plans, so why does anyone on the left want a Harris/Trump matchup? They don't!

Until Biden's debate fiasco, there was much speculation that Harris would be replaced on the ticket with Biden and most believe that his endorsement of Harris was a middle finger to Obama and the Democrats who stabbed him in the back as they shoved him out the door. Obama wanted a different candidate to emerge from the convention than Harris, maybe someone still will.

The truth is I believe they are still planning to steal it. There are still 29 million ineligible voters on the voter rolls and no one is doing anything about it. Why? They will use fraudulent forged registrations like the ones used in the 2020 Democrat-funded GBI Strategies operation, and

then mail in the corresponding fraudulent mail-in ballots just like they did in 2020. The GBI scandal was covered up by deep state traitor Bill Barr and Chris Wray's FBI. Must see this:

***Now We Have Proof: Massive Voter Fraud Uncovered In Michigan**

<https://www.thegatewaypundit.com/2023/08/now-we-have-proof-tgp-exclusive-massive-2020/>

There are now 132 countries that have banned mail-in ballots and over 100 countries have banned machine voting because that is where the fraud is most prevalent, machines have got to go. The Democrats are trying to make it legal for illegal immigrants to vote in national elections and want to ban state mandates requiring a picture ID to vote. Why would they do these things? Because free and fair elections would end the Democrat party!
